## Home Demonstration Club Notes

The last lesson of the Young Homemakers' Series entitled, Food Fads & Facts, was held April 28 at the Simon George Hall in Cameron.

A food fads question game was used as the main basis of the discussion as well as the F.D.A. publication, "Your Money And Your Life."

The young homemakers were made aware that ten million Americans spend half a billion dollars annually on food fads. The agents also urged the young homemakers to use basic nutrients facts to recognize fad diets, faddism quackery, half-truths, or other misleading statements, and to seek reliable information from qualified sources as well as to set an example for others by eating well-balanced meals, preparing them for the family and avoiding faddism.

Before evaluating the series, twelve homemakers were awarded certificates for completing the series. The Branchville H D Club served refreshments.

Congratulations to the New Salem H D Club who served as hostess this year to the annual May H D Luncheon. The food, decorations and entertainment were enjoyed by all who attended.

Members of the Milam County Subcommittee on Aging should also be congratulated for their successful planning of the Senior Citizens Day, April 30.

Mrs. J. B. Sapp is chairman of the subcommittee and Mrs. Lloyd Lamere, Mrs. Hinton Pruitt, Mrs. Wavy Charles, Mrs. George Young, Sr., Mrs. J. H. Angell, Mrs. Ruby L. Hunter, Mrs. Penetta Williams and Mrs. Lillie Hunter are all hardworking members of the subcommittee.

The CHDA & Assoc. CHDA are meeting their H D Clubs this month and presenting the program on "Meals The Family Like."

The May H D Council has been postponed from May 9th to Tuesday, May 17th, at 2 p.m., at the Simon George Hall in Cameron.

There were six H D Educational Exhibits put up throughout the county last week in observance of National H D Week.

First place award was given to the New Salem H D Club for their display on "Where The Dollar Goes", and second place was awarded to the Branchville H D Club for their exhibit on "Milk Is The Best Source of Calcium". Third place was awarded to the Tracy-Duncan H D Club for their exhibit on "Cemetery-Who's Next?"

Other clubs with exhibits were Davilla H D, First Cameron H D, and Cameron H D Clubs.

## 43 Cast Votes In Uncontested GOP Primary Saturday

All candidates won in the uncontested Milam County Republican primary election last Saturday.

A total of 43 votes was cast in the GOP's two polling places in Rockdale and Cameron. The Cameron box, located in the Methodist Fellowship Hall, had 25 votes, and 18 were cast in Rockdale.

Candidates for statewide office on the ballot headed by Senator John Tower each received 43 votes. Jay M. Jones of Rockdale, candidate for County Chairman, also received a 43 vote total. Lloyd Albertson, Cameron, for Precinct Chairman, Precinct 1, received 23 votes, and J. Estel Johnston, Rockdale, received 18 for Precinct Chairman, Precinct 16.

None of the candidates had opposition, and that, local GOP leaders feel, undoubtedly contributed to the light turnout of voters.

Precinct conventions were held in both Rockdale and Cameron after the polls closed Saturday evening, and delegates were named to attend the County Convention, which is scheduled for 7 p.m. Saturday, May 14, and will be held in the Commissioners' Courtroom in the Courthouse in Cameron.

## Maysfield, Gause Checked For CIP Award

Two Milam county communities were included in the fourteen communities selected in the Community Improvement Program, to be toured and judged by a district judging committee in District 8.

The Maysfield and Gause communities were visited and toured by the judging team Monday, May 9, according to John Snell, Assoc. County Agent.

Accompanying the judges on the tour were Miss Annie Lucy Lane, District Agent, and John E. Burleson, District Agricultural Agent.

The District Judging Committee was composed of: Mrs. Betsy Lacy Lampasas County Home Demonstration Agent, Dr. Clarence Carter, Soil and Water Conservation Specialist, and Mitchell H. Brown Jr., Limestone County Agricultural Agent.

Others on the tour were: Henry Ivey, from the Farmers Home Administration, W. G. McCoy, Texas Power & Light, Mrs. Bill Gause, Frank Nelson and the Milam County Extension Staff.

Observations on the tour included home improvements, new homes, church improvements, new school equipment, cemeteries cleaned and maintained, beef cattle and pasture improvements.

Winning communities will be announced.

### AMWAY DISTRIBUTOR

The Amway Corporation announced the appointment of Mrs. Lucile Monroe of 1006 East 19th St., Cameron as a distributor of Amway products. Mrs. Monroe will distribute the complete line of Amway home-care merchandise, including an all-purpose liquid organic cleaning concentrate which will not contribute to detergent pollution of water supplies since it is completely biodegradable in ordinary sewage disposal and septic tank systems.

## Phone Bills To Have New Look

Monthly telephone bills will have a new look beginning with the May statements, according to Rex Bailey, Division Manager for Southwestern States Telephone Company. He said the changes would result from processing by the new IBM computer system at the company's accounting center in San Angelo.

Changes in the dates that statements are mailed will be the major change. On May 13, customers in Thorndale will be sent new statements with credit for 13 days local service as their last bill was mailed on April 26. San Gabriel customers will be receiving their statements a few days earlier than usual. They will be mailed on May 22 and will reflect a credit for four days. New statements for customers at Thrall will be mailed May 16 and will have a credit for ten days local service as their billing date has also been changed from the 26th of the month.

As the new billing dates will be observed from now on, Bailey said that customers should make the payments as indicated on the new statements in order to be on schedule after the change. He emphasized that this is only a change in billing dates, and that local monthly rates will remain the same.

Bailey said, "This new accounting procedure is another phase in our continuing program to provide the best possible service in the most economical manner for our customer."

## Do-It-Yourself Programs Are Going Great

### COLLEGE STATION

Two Texas size do-it-yourself agricultural income programs are turning up some noteworthy results. A third program is in the planning stages.

The programs are being carried out by farmers, ranchers and agricultural leaders with technical assistance from A & M University. Much credit is due the county agricultural agents who play a key

role in urging farmers to adopt better farming practices.

The first program, labeled Blacklands Income Growth (BIG), includes 39 counties in Central Texas. John Box, A&M Extension agronomist and coordinator of the BIG program, says the BIG goal is the adoption of improved agricultural practices. Then, increased income will follow, he says.

And so it has. Cash farm income in the 11 million acre BIG area has risen some \$90 million since 1961.

The Build East Texas (BET) program takes in 40 counties from the eastern section of the state. It operates much like the BIG program.

## OUR GENUINE THANKS!

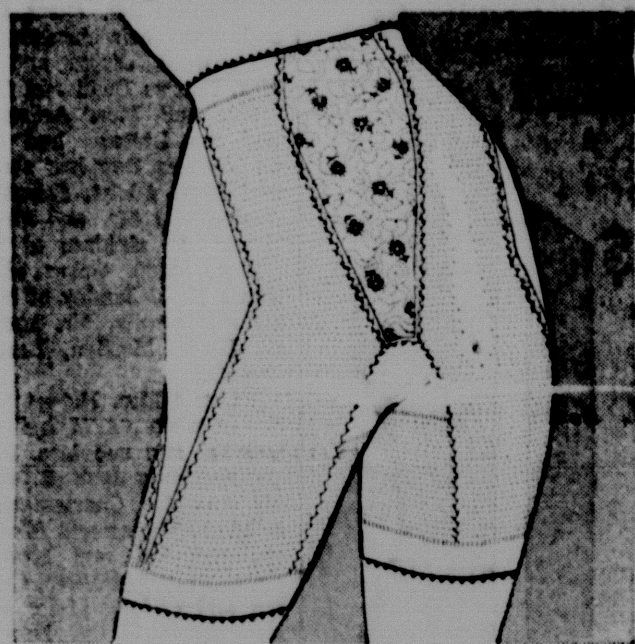

We are humbly grateful for the May 7 Primary vote which enabled our renomination for a third term in the Texas House of Representatives. If we can be of service, please contact us at either our Cameron or Austin office. It is gratifying to carry the support of a large percentage of District 27 voters, even the majority of Louis Patke's home box, 105 to 92. We hope to continue to serve you all well.

Again, Sincere Thanks,

**To a motorist who still hasn't put a Tiger in his tank.**

You're a skeptic. Good. Then you're going to be a good customer, if we can ever win you. We showed you proof on television that High-energy Enco Extra cleans your carburetor while you drive. (Probably you said, "So what? My car still runs.") We told you it improves firing power, helps

prevent hot spots and misfiring and gives you the high octane to help you take off like a cat.

(You drove right on by.)

It's frustrating to develop a gasoline that gives this kind of performance and then not even have you try it.

Did you know new High-energy Enco Extra is more powerful than aviation gasoline of just a few years ago?

That the Tiger is now the favorite of motorists all over the world? And that Jimmy Clark became the World's Champion Race Driver with a Tiger in his tank?

So why not "Put a Tiger in Your Tank?" "Happy Motoring!"

# Countryside Crisis

By D. A. Williams, Administrator  
Soil Conservation Service

Today, there is indeed a crisis in the countryside—or rather, two crises. One is the continued wastage of the land through erosion and improper use. The other is the result of man's partial success. This is the crisis of complacency about conservation.

Why this complacency? Perhaps it is because the need for increased conservation measures

does not immediately strike the eye. The supermarkets are full—today, the dust may not be blowing—today. And so we concern ourselves with the big headlines—wars, space, missiles, murders. These are serious matters indeed. But, we lose more of our land every year to silent erosion than we have ever lost, or shall ever lose, to a foreign foe. Where is the battle cry for this?

What happens to the eroding

lands in Missouri and Montana affects us more directly than our landing on the moon. Where are the pleaders for this? And—no matter what weapons of the future we develop—the most modern army in the world still travels on its stomach, still depends on the bountiful earth we take for granted.

Do not misunderstand me. Our activities around the world, and out of it, are very necessary. But

I still firmly believe to the end of my life that there is no war more important, now or for the future, than conserving and enriching our land, the basis for our life, our living, our national wealth.

Yet, we lose each year, through erosion and other forms of preventable damage, about 300,000 acres of formerly productive land. The bulldozer and the bulldozer take another acre and another million acres of the best land every 200 days for highways, factories, houses, and so on. Our rivers continue to flood and destroy homes and crops. Our water supply runs, short, becomes polluted, erodes the land.

And, as much of our land disappears, our population and that of the world increases.

Yes, our supermarkets are still full. Our lives have not run out. But, quite literally, the soil of our forefathers are being visited upon us. We cannot afford to be as wasteful in the future. If we desire our children's children to inherit an affluent America, we must plan more intensively, farm more wisely, care more urgently. And we must place our vision on the horizon that what happens in rural America affects us immediately and profoundly.

We call our land "God's country," and it is. Let us slowly acknowledge it is our job to keep

it that way. Farmers and ranchers, as the chief soil stewards, have the heaviest responsibility. They of all people know the conservation job is far from done. Thirty percent of our land is being properly treated. What about the 70 percent?

As we acknowledge Soil Stewardship Week, let us indeed thank God for this country, and for the thousands of dedicated people working to keep it rich and bountiful—especially the officials and co-operators of our 3,000 soil and water conservation districts. And then—let us get off our knees and go back to work.

## Bride-Elect's Colors Decorate Mann Home For Afternoon Party

A miscellaneous shower honoring Miss Cathy Grimes, bride-elect of Mr. Billy Owen, was held Saturday afternoon, May 7, at the home of Mrs. Wayne Mann.

The register table was covered with a white Irish linen cloth centered with a bud vase holding a white carnation, blue and white decorations and the bride's book.

The refreshment table also carried out the bride's chosen colors of white and blue. The table was covered with white lace over a blue satin cloth and centered with a large wedding bell topped with a miniature bride's bouquet. Blue satin streamers joined two smaller bells to the centerpiece. Punch was served from a crystal bowl and crystal trays held blue and white bell shaped cookies.

Assisting in the houseparty were Mrs. Paul Board, Mrs. Lawrence Logan, Miss Billy Lou Grimes and Miss Jo Ann Owen.

Special guests were Mrs. Billy Grimes, mother of the bride-elect and Mrs. Barnett Owen, mother of the prospective groom.

## Silver Tea Honors Delphian Charter Members; Aids Project

The Cameron Delphian Club honored charter members who are still active in the Club and continued their interest in the Cameron Public Library, through a silver tea held Tuesday, May 3, at the Methodist Fellowship Hall.

Punch, sandwiches, cookies, mints and nuts were offered from a table covered with a blue silk cloth with blue net over-lay and centered with a large arrangement of colorful spring flowers.

The register table and several small tables were covered with white and bowls of flowers in the centers.

Charter members joined Mrs. R. G. Grabein, Club president, in the receiving line and each wore a pink carnation corsage. Mrs. J. A. Bowling was hostess for the tea.

Community Work is the principal project of Texas Federation of Womens Clubs which the Delphian Club joined in 1939 and the local group has centered their interest on the Cameron Library in recent years. Proceeds from the tea will be used for a gift to

the new building.

The Silver Tea also furthered the General Federation of Womens Clubs "Diamond Jubilee" observance.

The original Cameron Delphian Club was a part of the Delphian Society, an international study organization with headquarters in Chicago. Members purchased a set of 20 books to be studied in a six year program. At the completion of the study, the local group elected to withdraw from the society and change the name to Delphian Club.

Original membership roll for the Club included: Mrs. Hubert Atkinson, Mrs. Ben Atkinson, Mrs. Arthur Baskin, Mrs. Howard Baskin, Mrs. R. L. Batte, Mrs. Jim Barmore, Mrs. J. W. Coleman, Mrs. T. F. ## New Post Office Okayed For Rosebud

Plans to acquire a new post office building in Rosebud, Texas 76570, were announced recently by Postmaster General Lawrence F. O'Brien. The new building will be designed to carry out the Post Office Department's objective of a more efficient postal service combined with improved working conditions for postal employees.

"President Johnson has asked us to exercise frugality in conducting our governmental operations, and we are doing so. New construction, therefore, is being authorized only when it is demonstrated that the need is urgent and no other alternative is available. The alternatives would involve remodeling of the post office quarters or moving into another suitable existing building in the same community."

The building will be located on the corner of Avenue D and Fifth Street intersection, and is expected to be slightly larger than the present quarters, with an 80-square foot platform and an outside area of 5,000 square feet for parking and maneuvering. It will be constructed under the Department's Lease Construction Program, with the government's capital investment limited to postal equipment. While leased to the Government, the building will remain under private ownership and the owner will pay local real estate taxes.

Leonard Ramon Diaz Montes de Oca, San Juan de la Maguana, Southwest Region, Marco Antonio Cedeno, Higüey, East Region.

The group was accompanied by Mr. Elmo Cook, who served as their Technical Leader, and Mr. Juan Furst, who acted as their interpreter.

Points of interest they visited in Milam county: A. W. Butts farm at Rockdale. Of particular interest was the swine feeder pig operation using secondary S. P. F. sows bred by Dr. Tittsworth, Cameron Veterinarian. The group started their Milam county tour at 9:00 a.m., at the Butts Nursery in Rockdale.

The group went from Rockdale to the A.S.C.S. Office in Cameron. The purpose of this stop was to explain the purpose and activities of the other agricultural agencies through the Technical Action Panel headed by Mr. Henry Ivey, Office Manager for the Farmers Home Administration, Alva Sanders A.S.C.S. Office and Dowell Bailey, Production Credit Office Manager.

Next point of interest was a visit to the Duncum implement Co. Mr. Duncum explained his interest and activities in Milam county agriculture.

After lunch in Cameron, the group visited the family type farms of Anton Moraw and Frank Kratochvil.

This visit, along with the two groups who are visiting other counties in the Blacklands and East Texas, is a very important part of a program Texas A&M University is engaged in to assist the people of the Dominican Republic in increasing food production and farm income in their country. At the present time, Dean of Agriculture R. E. Patterson and a committee of twenty members of his faculty of Agriculture, are engaged in developing agriculture production and management guidelines for the Dominican Republic, similar to those developed for the Blacklands Income Growth Program in Texas.

## Cameron Students To See New Achievements In 'Machine Talk'

Demonstrations of new equipment that sends handwriting, drawings and electrocardiograms over telephone lines will highlight a program at the O. J. Thomas High School at 10 a.m. and Yoe High School at 2:30 p.m. on Tuesday, May 17.

Jim Sage, science demonstrator for Southwestern Bell Telephone Company, will present the 30-minute show.

During his program, "Information on the Move," Sage will describe the Bell Telephone System's role in providing equipment to send signals from computers, business machines and other electronic devices via telephone.

This fast-growing field of sending "machine talk" across town and across the nation is known as data transmission. Telephone industry officials predict that within a decade there may be more "machine talk" than "human talk" traveling the telephone circuits of this country.

Sage will show how Data-Phone, a Bell System development, changes information from computer cards and tapes into tones which can be transmitted by telephone.

He'll also demonstrate how an electrocardiogram can be sent over a phone circuit just as quickly as a regular call will go through. This technique is used by doctors to quickly obtain pictures of a patient's heart actions, even though that patient is hospitalized in a distant city.

The science demonstrator will describe other telephone equipment that can transmit information at a speed of 1 1/2 million words per minute.

Mrs. Howard Fulcher left Sunday for Houston to spend several weeks with her children.

Mr. and Mrs. Gus Clark and John of Houston visited Mrs. Bill Clark over the weekend.

Mitchell Clark and Karen Flint of Taylor were married Friday, May 6, at 5:30 p.m., in the Methodist church in Taylor. Here for the wedding were Mrs. Larry Henry, Jo Ann and Donna and Mrs. Jay Smith and son of Ft. Worth and Mrs. Bill Stigall, Brian and Dale of Houston.

Mr. and Mrs. Buddy Limmer's little eight-months old granddaughter, Kimberly Limmer of Bastrop, spent the past week with them.

Lillian and Jack Stiles and children of Dallas were weekend guests of their parents, Mr. Lillian Garner and Mr. and Mrs. E. G. Stiles.

Mr. and Mrs. Richard Heine honored their mothers, Mrs. J. P. McDaniel and Mrs. R. D. Heine Sr. with a dinner Sunday. Other guests were Mr. and Mrs. Arthur Wuthrich, Linda and Douglas, Karen and Keith McDaniel, Mr. and Mrs. Walter McDaniel, Mr. and Mrs. Carl Potts, and Mr. and Mrs. Donny Heine.

Diagnosis By Phone - Jim Sage, science demonstrator for Southwestern Bell, shows how doctors use special equipment to send patients electrocardiograms to heart specialists in other cities by telephone. Sage will present a 30 minute showing of new equipment at the O. J. Thomas and Yoe High schools Tuesday.

Carlton Baker has been named district manager for Southwestern Bell Telephone Co. in Austin. Tom G. Brown Jr., division manager, has announced. He is a native of Goldspring and a 1961 graduate of Baylor University. He replaces Lonnie R. Griffin who was promoted to division manager at San Antonio.

Luncheon will be served by Mrs. Pat Honeycutt and St. Mary's Mothers with the aid of the Student Library Assistants.

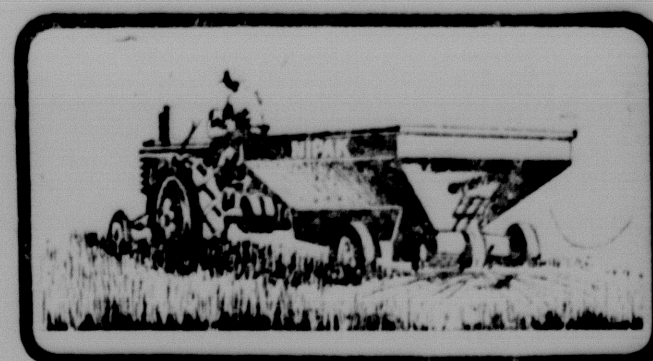

## DON'T TEMPT "GUESS" SHOOTERS

Never carry anything white when camping, hunting or fishing in deer range country. Trigger-happy hunters have been known to fire off the flash of a white hankerchief mistaking it to be the "flag" of a white-tail deer.

## WATCH THE HORIZON

Keep your eyes on the horizon when quail hunting. Note where the dog is pointing and walk to that spot.

But don't look at the ground. By keeping your eyes on the horizon you can focus them quicker and better pick up individual birds as they flush.

## A Reprint, If You Please . . .

The following is a reprint of a Herald editorial of May 23, 1963, on the eve

## A Quiet Resolution . . .

Sounding a note of triumph, the graduates of 1963 step from their cocoon of learning into a world apart from their own.

We join the thousands of parents, graduates' families and educators of this area who wish the class of '63 well. Change, inexorable and constant, is the keynote of their future. Adapting background, talent and determination to this change is the great challenge.

It is a challenge of choice and chance. It is a challenge of inner drives and outer forces that the wisest of us do not fully comprehend.

It is a challenge of space, the space in which Astronaut "Gordo" Cooper orbited 22 times around the earth.

It is a challenge of self control.

Cooper showed both a mastery of his technology and himself. By adapting, he demonstrated at re-entry the dual values of knowing himself as well as his technical environment.

His self control will outlast his technology, even though his place in space history is assured. Without it, he would have been a brief spark in the sky.

Our graduates face a somewhat similar problem. They must compete in a world of infinite detail and yet keep themselves whole.

Not a new challenge, perhaps, but change has never been so rapid nor the possibilities of youthful responsibility so great.

At 30, a young scientist can determine success or failure of a multi-million dol-

lar space shot. His success may mean a Nobel Prize. His failure may mean a disaster.

A young researcher can find the serum that will immunize millions against hitherto uncontrolled disease only to have a better serum devised soon after.

This is ironic and disconcerting. We may produce and be outmoded at a younger age, yet live a much longer life. It is possible to see a contribution before the middle, mature years summarized and swamped by newer technology a year later.

Adaptability, then, means keeping up a fast, technical pace and somehow strengthening a vision of greater values within, rather than without. Young people can hardly expect to be philosophers. But depth philosophy is more important in the future than "depth psychology" at present.

How can these youngsters, pride of our present and hope of our future, meet such challenge? They hold the answer in their presence . . . of mind and spirit. Like "Gordo" Cooper, they must work with what they have and what they know, adapting their grasp of the real, strengthened by a feeling for the unreal.

Counter to any trumpet's blare, they must find inner accomplishment, a quiet resolution that vistas of space and minute scientific wonder neither disturb nor dismay.

## State Voters Law Queries Continue

Although the poll tax now is officially dead, as a voting requirement, the fight over registration procedures continues.

U. S. Supreme Court, as expected, agreed with a three-judge federal court here that the 74-year-old levy is unconstitutional. Court already had stated in a Virginia case that a state is prohibited from placing a charge on the right to vote.

Action, however, was necessary to place in full effect the voter registration law passed by the Texas Legislature in special session last February.

Texas voters still will cast ballots next November on a proposed state constitutional amendment to "repeal" the poll tax. Same amendment provides that an annual registration will not be built into the state constitution. They will continue their drive for a permanent registration plan, where by a voter once registered remains eligible simply by voting regularly in elections.

New Election Law Study Committee indicated it will devote much of its effort to improving the system enacted under emergency circumstances. Committee has requested that suggestions in general for amending Texas election laws be submitted to the Texas Legislative Council before June 30.

COURTS SPEAK  
Should federal court-ordered principle of equal population for congressional and legislative districts apply to county commissioners precincts as well?

State Supreme Court heard arguments on the question in a suit filed by Midland Mayor H. C. "Hank" Avery to bring the one-man-one-vote theory to precinct level. If court agrees, major changes could result in county government throughout Texas.

Opponents said Texas Constitution provides that precincts will be created "for the convenience of the people." High Court also agreed to review a May 25 suit to void Jefferson County contracts for replacement of Pleasure Island Bridge at Port Arthur.

After a 13-week trial, a Travis County District court jury held that more than \$1,000,000 was "misappropriated" from Lumberman's Insurance Corporation of Dallas as the result of a scheme involving bankers and an insurance agency owner.

AG RULES

Texas State Library and Historical Commission may make direct monetary grants to local public library units under federal act, subject to approval of state plan. Atty. Gen. Waggoner Carr held. In other opinions, the attorney general has ruled that:

Cigarette vending machines operated on a military reservation are subject to the regular permit fees.

Residence in which the Cameron Independent School District superintendent lives is tax-exempt, since it is owned and maintained by the district to encourage qualified personnel, and therefore serves a "public purpose."

Acquittal of the charge of driving while intoxicated, second offense, would bar a subsequent prosecution for driving while intoxicated, first offense.

Registration fees may be paid by state for Veterans Land Board appraisers attending an appraisal school at Texas A & M.

Trust agreement for investment of perpetual care funds may be amended to permit investment in corporate stocks and other investments authorized by Texas Trust Act.

## DIPLOMATIC POUCH

WASHINGTON. The following letters were recently answered by the Department of State.

When the Russian American Fur Company was operating in Alaska, the furs they took from this area were shipped to China. It is my understanding that these sea-otter furs were used to line the robes of the "aristocracy." We are very interested in obtaining one of these robes for our local museum. Is there someone in China who may know someone who could help us locate one of these robes?

L.A.R.

Sitka, Alaska

Dear Mrs. R.:

The Academia Sinica in Taipei, Taiwan, Republic of China, maintains a collection of Chinese dress and may have a specimen of the robe in which you are interested. We would suggest that you write to Mr. Lynn Noah, Cultural Affairs Officer at the American Embassy, Taipei, and ask him to pursue this lead for you.

In the end, the Viet Nam situation will have to be settled at a conference table, so why not do it now before we let more of our dear boys get killed? We mothers didn't raise our boys and give them a good college educa-

tion, just to be killed in some far away country that no one even heard of until we found ourselves at war with them. Please use all the power and influence you can get together to end this war and bring our boys home immediately.

R.L.T.

Minneapolis.

Dear Mrs. T.:

An objective of our Viet-Nam policy is peaceful settlement, and we very much wish this objective could be obtained without the use of force. We stand ready to consider any solution which would bring peace and justice to all of Viet-Nam, North and South. Unfortunately, the governments in Hanoi and Peking have so far rejected every peace offer from any source. They have spurred the efforts of the United Nations to mediate. They have scorned the offer of the British. They have brushed aside the efforts of the Indian Government. In short, they have rejected all efforts to restore peace and justice to the people of Viet-Nam.

The attitude of the Government of the Republic of Viet-Nam toward Communism is unmistakable. Even though there has been a series of governmental revisions since the fall of the Diem government in November, 1963, every administration has operated from a basic policy of anti-Communism, and a staunch determination to continue the struggle against Communist aggression. The close to one million persons who fled from North Viet-Nam to the South after the Communists assumed control in the North are impressive testimony to the allegiance of the Vietnamese people.

## TAKE YOUR PROBLEMS TO CHURCH THIS WEEK

### Millions Leave Them There!

## LOST BOY

Dry those tears, Sonny. The Law has brought you home.

But when you're grown up, don't get lost then—for the Law won't be able to bring you home!

Sure, grown-ups often get lost. They choose the wrong road, they take the wrong turn, they depend on the wrong ideas, they seek the wrong aims. And some of them get lost again and again.

Why can't the Law bring them home, too? Well, when a grown-up gets lost he generally does a lot of harm to himself and others. And then it's the job of the Law to protect people from the harm he is doing.

But, Sonny, when you grow up you're not going to get lost. We have thousands of churches for youngsters like you—and for your parents, too. Churches teach us to find ourselves before we have a chance to get lost.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### Armed Forces Day

III Corps and Fort Hood commander, Lt. Gen. Ralph E. Haines Jr., has invited Cameron and Milam County residents to the "biggest Armed Forces Day celebration ever held at Fort Hood."

Gov. John Connally has accepted General Haines' invitation to be guest of honor at the 8:30 a.m. parade at Sadowski Field which will begin the day's celebration.

Gen. Haines announced as other features of the program which will continue to mid-afternoon "a sky-diving exhibition, displays of weapons and equipment, band concert, variety show, open house at headquarters and barracks buildings and tank, train and armored personnel carrier rides."

"We'll have something for every member of the family to enjoy, and on a scale greater than ever attempted at Fort Hood," General Haines said. "I would like the residents of Cameron and Milam County to consider this announcement a personal invitation for them to spend Saturday, May 21, with their Army at Fort Hood."

## 8 Safety Rules For Kite Fliers

Kite-flying time is here, and youngsters are urged to observe eight basic safety rules when flying kites, Henry Siebman, Texas Power & Light Company manager, said.

1. Never fly a kite with metal in the frame or tail.

2. Never use thin string, wire, or any time that has metal in

3. Never fly a kite near electric power lines.

4. Never fly a kite over TV or radio aerials.

5. Never touch fallen electric wires.

6. Never run across streets or highways while flying kites.

7. Never pull on the string or climb a power pole to loosen a snagged kite.

8. Never fly a kite in the rain.

## "MUSTS" to get the MOST from your AIR CONDITIONING

### FOLLOW THESE STEPS:

#### 1. REPLACE OR CLEAN FILTERS

Dirty filters cut down air flow... increase operating cost. Replace or clean before hot weather starts... monthly thereafter.

#### 2. OIL VITAL SPOTS

Refer to the operating manual for instructions on oiling.

#### 3. HAVE A CHECK-UP

A periodic check-up by a qualified serviceman will assure efficient and economical operation.

#### 4. SET THE THERMOSTAT

The hotter it is outside, the more your air conditioner must work. Set the thermostat for a comfortable temperature; don't try to make it "December in July."

# THE FAMILY LAWYER

## CRUELTY TO ANIMALS

To brighten up a dull afternoon, two men tied an oil can to a dog's tail and set the oil on fire. At the time it seemed hilarious. But the men did not laugh when they were hailed into court and found guilty of cruelty to animals.

Few of us today would quarrel with the court's ruling. Yet, until comparatively recent years, cruelty to animals was not a crime at all. The common law did protect the property rights of an animal's owner, but did not protect the animal itself. Thus:

Suppose A abused B's horse. B, having suffered an injury to his property, could collect damages from A. But suppose B abused his own horse. Or suppose the horse was a stray, with no owner to be concerned. Then the law kept silent. Nothing stayed the brutal hand.

But if the common law did not condemn, common decency finally did. In a striking shift of public opinion, cruelty to animals — in itself — has now been branded everywhere as a crime.

Economics has nothing to do with it. When a man was fined for turning an old horse out to starve, the court spoke not of the dollar value of the horse but of the moral outrage to one of God's creatures.

True, we may still inflict harm on an animal for an honorable reason. Thus we may kill an animal — humanely — for food.

"Otherwise," a judge noted, "one could not slaughter a pig or ox for the market, and man could

### PTA OFFICERS

High light of the monthly meeting of Rogers Parent Teacher Association meeting Monday night (May 9) was installation of the 1966-1967 officers by Mrs. L. L. Ledger of Copperas Cove, President of the Texas Congress of Parents and Teachers.

After the opening prayer, Boy Scouts lead in the Pledge of Allegiance. The Junior High School Chorus, directed by Charles Conner, sang "God Bless America," accompanied by Mrs. L. P. Moore.

Incoming officers installed were: Mrs. Darrell Henson, president; Mrs. Earnest Schiller, first vice president and program chairman; Mrs. Ruben Gerz, second vice president and membership chairman; Mrs. Edwin Psenick, secretary; Mrs. Arthur Cross, treasurer; Darwin Schwertner, parliamentarian; Mrs. Fred Spinn, historian; and school representative, B. F. Harbour.

The film made last summer of Project Head Start in the Rogers Public Schools with sound included was shown at the end of the meeting. Darwin Schwertner also showed the film Friday in Dallas at the convention of the International Reading Conference on special invitation from the organization.

### SCHOOL FILM

Darwin Schwertner, principal of the Rogers Elementary School and Director of the school's Head Start program, was in Dallas last week-end attending the International Reading Conference on special invitation from the organization to present the school district's film of "Project Head Start in the Rogers Public Schools, 1965".

The film with sound track was produced by Charles Conner and George Gideon, with the assistance of a professional firm in Austin.

### HONOR SOCIETY

At the May meeting of the National Honor Society, Rogers High School Chapter, new officers were installed by Principal J. L. Chervenka for the year 1966-1967. Richard Green, outgoing president, conducted the meeting.

Rev. Arthur Michalka, pastor of St. Joseph's Catholic Church at Cyclone, was the guest speaker. He discussed the importance to a young person of knowing himself, knowing where he is going, and trying to know the consequences of various types of activities in life.

Mrs. Johnnie Martin and A. A. Kretschmar are sponsors of the High School Honor Society.

## INCOME PROGRAMS PROGRESS

Two do-it-yourself agricultural income growth programs, Blackland Income Growth - BIG - and Build East Texas - BET - are making real progress. John Box, Extension agronomist and coordinator for BIG says farm income in the 39-county Blackland area has climbed some \$90 million since 1961 when the program was initiated. Income in the 40-county East Texas area increased some \$13 million in 1965 over the 1964 total, according to Jas. I. Mallett, Extension area farm management specialist and BET coordinator. The programs are carried out by farmers, ranchers and agricultural leaders with technical assistance from Texas A&M University County agricultural agents have played major roles in the programs. A third, Panhandle Economic Program - PEP - is in the formative stage.
